Court house Sullamore 20th December 39

At a Meeting of the Board of Guardians of the Sullamore Union Mr. Walsh in the Chair and 29 Guardians being present the following proceedings took place

1 The minutes of the last meeting were read and confirmed

2 The Chairman read letters from the Parishes in reply to a letter which he was instructed to write to them on the subject of the Poor-rates of the Union, and some of these letters were not appearing explanatory

Moved by J. Perry
Seconded by C. Bagot

3 That the Chairman write to Mr. Reynolds requesting to be informed on what terms the Bloate branch of the National Bank of Ireland will make advances to the Guardians after a rate has been made as his letter is not specific on that point and that a similar letter be written to the Manager of the Branch Bank of Ireland of Sullamore

Carried unanimously

Moved by J. Ryland

Seconded by J. Andrews

4 That the Poor Law Commissioners be requested to obtain a seal for the Union as appeared in their letter to the Board

Seconded by J. Jackson

That the assistant Commissioner be requested to give the necessary advertisements requesting tenders from competent valuers for the usual Newspapers, such tenders to be laid before the next meeting of the Board

Carried unanimously

Moved by J. Perry

Seconded by W. Scully

That this Board is of opinion that it is highly desirable that power be vested in some authority to suppress vagrancies and mendicancy in order that the rate payers may be protected from the double expense which is otherwise likely to be incurred, such power however only to be exercised when a rate has been levied and that the relief afforded be given to the poor

Moved by J. Robinson

Seconded by J. Ryland

That copies of the above resolutions be sent to Lord Salisbury, Lord Devon, Lord Digby, Lord Charles, Lord Mansfield, to the Marquess of Cambridge, to the Duke of Devonshire and to Lord Fortescue requesting their attention to the subject - passed

Moved by B. Delaney
 Seconded by Mr. Dunne
 That the Board adjourn to Tuesday the 14th
 day of January next at twelve o'clock

That this Board taking into consideration its
inexperience, and the absence of all information
on the working of the Irish poor Law, which has
in no one Union in Ireland, as yet afforded
 Relief to the destitute, and therefore could not
prove its practical defective provisions, deems
it important to rescind a resolution pre-
viously passed recommending the Board
endeavouring to be better in some authority
for the diffusion of information of Guardians

and that our Chairman be requested to convey to the different Members and Gentlemen to whom copies of that Resolution has been transmitted, this deliberate counter decision of the Board as expressed in this Resolution.

Sir

The poor Law Commissioners have to ac-
knowledge the receipt of a copy of the minutes of
proceedings at a Meeting of Guardians of Tullamore
Union held on the 7th Inst with a copy of the follo-
wing resolution adopted at that Meeting

"That this Board taking into consideration
its inexperience and the absence of all information
in the working of the Irish Poor Law, which has in
the one Union in Ireland, as yet afforded relief to
the destitute; and therefore could not form its
practically defective provisions: deem it im-
portant to rescind a resolution recommending power to be
vested in some authority for the suppression
of Vagrancy and Mendicancy, and that our
Chairman be requested to convey to the dispen-
sary and Guardians to whom copies of that
resolution had been sent: this deliberate Con-
currence of the Board is expressed in this
resolution"

To many other Boards of Guar-
dians have expressed an opinion (in which the
Commissioners fully concur) that the Irish
Poor Relief Act cannot be brought into effectual
operation, without a provision for the suppression
of Mendicancy in each Union after the Workhouse
shall be opened, and while it is capable of
receiving inmates. - The Commissioners regret
to observe that the above resolution of the
Tullamore Guardians is an obstacle to the im-
mediate enactment of a Law for this purpose,
and which Law it must be assumed would
have to be applied by the Concurrence of the

of the Civil Authorities, and the Guardians of the District, as the State of the Workhouse and other circumstances might require.

On referring to the 1st Section of the Irish Poor Relief Act, the Guardians will observe that it will be their duty to admit to the Workhouse "such destitute poor persons as by reason of old age, infirmity, or defect, may be unable to support themselves, and destitute children; and in the next place such other persons as the said Guardians shall deem to be destitute poor, and unable to support themselves by their own industry or by other lawful means." Referring the resident poor where there may not be accommodation for all the persons applying "whom the Guardians shall deem to be destitute" it must therefore be assumed that the Workhouse accommodation which the Commissioners are required to provide will be in every case proportionate to the wants of the Union; and the Guardians may consequently without actual experience of the operation of such provision for the destitute poor, now determine whether a Law for prohibiting Mendicancy under the limitations already referred to may be requisite or otherwise.

The Guardians have possibly assumed when passing their last Resolution that when Poor Rates shall be levied alone will no longer be given to Mendicants who will necessarily resort to the Workhouses, in which case a Law for prohibiting Mendicancy may be unnecessary.

The Commissioners however are satisfied that so desirable a result will not be obtained by the operation of the Poor Relief Act alone.

but on the contrary that Mendicants will, on various pretences decline applying for admission to the Workhouse of their own Unions, and moreover that Paupers will force into Unions in which the Workhouse will be full and exact them on the plea of inability to obtain relief in their own Unions where in consequence of their being no Workhouse, or of its insufficiency, a place which the Poor of another Union cannot at the moment be supposed to disprove.

The Commissioners desire to know what the Guardians have considered the subject in this Union, and what opinion they have formed as to the probable effect of the Poor Relief Act, singly, in relieving Paupers from the evil now described.

The Guardians are no doubt desirous that the really destitute poor should be relieved otherwise than by begging, and when that shall avail themselves of the relief to be afforded in the Workhouse, the Guardians will of course also desire that the other poor who prefer a life of beggary and mendicancy to Industry or the discipline of the Workhouse, should, for the protection of the Ratepayers and of the laborious classes generally be prohibited from begging, and thus be compelled to obtain themselves a labor for their support.

The Guardians it is presumed would not consider it otherwise than inferior to have a Workhouse provided at a great expense for the administration of relief, and still to permit persons to subsist by begging in the Union, thereby causing a heavier charge on the Inhabitants than would be incurred for the maintenance of the same persons in the Workhouse, and for preventing this it would appear that a Law prohibiting Mendicancy is necessary, and for local improvement and

and as a sanitary measure of police for checking contagious, bacillate, and the growth of crime, as well as for the protection of the shipowners against marauders belonging to their own Union and against the incursions of strangers under the circumstances already noticed.

The commissioners deem it important to place these views before the Guardians of the Lillamore Union and to recommend a reconsideration of the Resolution passed on the 7th Inst.

Sir,

The Hon. Law Commissioners desire to
inform you the Board of Guardians of Tallamore Union
that the deed of security of the Loan to be advanced
by the Exchequer for providing the Union Workhouse
has not yet arrived at this Office, but that as the
usual preliminary arrangements for which the
preparation of the Deed was necessarily deferred
must have been completed at the Treasury within
the last few days, it may now be received within
the present week, and the Clerk of the Guardians
will then be instructed to take the necessary steps
for having a Special Meeting of the Board convened.

The Commissioners desire further to state
that the Contract to erect the Workhouse for £5000
has been signed by Mr. Mayne of Tallamore, and that
the Crown Solicitor for the Home District who
has received instructions to prepare the con-
veyance has been apprised; the possession of
the site being immediately required it would be
advisable to have the conveyance executed at once
leaving the Deed in possession of the Earl of Charleville
Solicitor until the Exchequer Loan shall be
available, as actual possession cannot
be obtained before execution of the conveyance

Referring to the attachment appears
due to your letter of the 14th inst. relative to the
cultivation of *Ipomoea plantago* with roots, -

The Poor Law Commissioners desire to state that as the Irish Poor Relief Act (see 64) supposes the rate upon the value of the lands to be — "one penny in the pound" a year with another the same might in their opinion be reasonably expected at

from year to year, it will in all cases be necessary to value Lands occupied by trees at the Rent which while so occupied it may be expected to yield. - and if such Land should be of less value than if used for the production of any other crops it must immediately be valued with reference to its "Actual state" but as Land must necessarily be valued as if the produce belonged to the occupier (the produce being the source of Rent) and as trees in many cases are not the Property of the persons occupying the Land on which they grow, this Land must be valued as if the Ownership of the produce were vested in the Occupier, in which case if the estimated letting Value shall exceed the Rent paid by the Occupier who is owner merely of such other produce as can be obtained from the Ground. - the Occupier will not thereby be made liable to an undue share in the poor Rates, as where Rent exceeds the Value, the Law places the larger portion of the Rate on the Landowner who is the person generally entitled to the Value of the Timber.

That in consequence of the great difference of opinion entertained on the Principle which should regulate the Valuation of Splendid Residences, it is desirable that the Commissioners opinion be obtained on the subject, - the marketable value (from the little demand for such places) being scarce capable of being estimated; while the consideration of the Capital expended on such Structures would seem to lead to an exorbitant Valuation

Notice of motion by Charles Bagot

Sheweth give notice that I will propose the following Resolutions at the next Ordinary Meeting of this Board:

That we consider that it would be highly desirable and useful that the Ratepayers of this Union should be admitted, (under proper restrictions as to numbers) to be present at the Meetings of this Board; but not to take any part whatever in the proceedings. But it being contrary to the Order of the Poor Law Commissioners for regulating the Meetings of the Boards of Guardians that any Stranger should be present at our Meetings, we regret that we have it not in our power to admit them.

That although we have every reason to believe we enjoy the full confidence of the Public that it would afford much satisfaction to the Ratepayers to attend and see how their business was conducted by their Representatives; and that it would entirely do away with any feelings of jealousy that may exist in their minds, in consequence of "Strangers"; the Reporters of the Public Press being allowed, and Ratepayers, the persons really interested, being prevented from being present at our Meetings.

That in as much as the P.L. Commissioners have in part dispensed with their Orders, by sanctioning the admission of such Reporters to our Meetings; our Clerk be directed to forward a Copy of the foregoing Resolutions to the Poor Law Commissioners, with a request that they will be pleased to further dispense with the said Orders, and to allow this Board to admit

Ratepayers in the following manner:—That is to say,—That each Guardian who himself attends any Meeting of the Board may introduce, if he shall so think fit, one or two Ratepayers, but not more, to attend such Meeting in manner hereafter described.

Proposed by M. Conway
Seconded by James Brin

Resolved That the next Ordinary Meeting of the Board be held on Thursday the 9th of Decr next.

" 24 9 D,

" For Law Commission Office
Dublin 3rd Jan^y 1842

" Sir,

The Poor Law Commission have had
under consideration a Resolution of the Board of
Guardians of the Tullamore Union, &c that

"inquiring whether there are any provisions contained in the Irish Poor Relief Act, empowering Boards of Guardians to purge the Registry Rolls of surreptitious claims to vote, & to strip by fictitious persons representing themselves as Landlords or Tenants of such: and the Commissioners agree to that, that by the 8th Section of the Irish Poor Relief Act, none but Ratepayers (where a Rate has been made) can vote: the fact of being entered on the Rate, or of having a rateable interest in the property entered in the Rate constitutes a Ratepayer, and the Rate last made before the Election is to be referred to. No claim to vote as a Ratepayer in respect of Property not occupied by the claimant can be valid unless he be proved first to be a Ratepayer; for the claim upon notice, or rather the Statement of the claim, is a condition without which, though an admitted Ratepayer, he cannot vote: the Statement of the claim does not constitute a Ratepayer nor prove a person to be one.

"The Commissioners are, therefore, of opinion that it is competent to the Returning Officer or Board of Guardians to inquire whether a Person stating a claim to vote, be, or be not, such a Person as has a right to vote, provided he states his claim in due time; - or in other words to inquire whether a claimant is a Ratepayer, and if it be found that he is not a Ratepayer his Statement of claim ought to be cast aside as that of a person who is not entitled to make such Statement; and the Commissioners are of opinion, that, as the Rate made last before the Election is to be taken as concerning the right to vote, the Registry of Statements of claims should

be corrected by reference to such Rate, before every Election; and that every claimant on the Registry but who cannot show that he has at that time a Rateable interest in Property in the Rate, should be deemed to have become disqualified to vote, and his Statement of claim must be considered as exhausted.

"In accordance with these views the Commissioners consider that it is not obligatory on the Board of Guardians or Returning Officer to receive every Statement without Scrutiny; and that it is the duty of the Returning Officer or Board of Guardians, to consider and determine in every case, whether the claimant's qualifications agree with the definition, and then to admit or reject his claim accordingly, and that this duty should be performed before every Election.

"When no Rate has been declared the same reasoning applies in the case of Occupiers."

Resolved that the arrangements proposed by the Treasurer of the Union for the transmission of Poor Rates as contained in his letter and that of the Secretary of the London Directors dated June 15th be inserted in the Minutes

passed unanimously

London 15th June 1862

John M. Walsh Esq
Chair

Your letter of the 10th inst has been under the consideration of the Board of Directors, by whom I am instructed to acquaint you that they will have pleasure in acceding to the wishes of the Guardians of the Poor Law Union of Llanfair, that the Poor Rates, provided by the Collectors may be remitted to their Managers at No. 4

OCL BG158/1/1

by letters of credit on the Bank of Ireland, and
which arrangement they trust will obviate the
difficulty referred to in your letter.

Yours
Sincerely

Your Very Obedient Servant
For F.B. Smith Esq.
R.S. King

National Bank of Ireland
Montpelier Lane 1842

To obviate the difficulties complained of in
the transmission of the Collection of the Poor Rate,
I propose that the Collectors lodge their money
in the Bank of Ireland, procuring from that Estab-
lishment a letter of credit on Dublin in my
favor, for all sums of £5 and upwards; when
the collection is under £5 should the Bank
decline granting a L.C., to procure a Bank-
post bill in my favor, cutting several in halves
and permitting same to go by two different
posts. I undertake that this Bank shall be
accountable to the Board of Guardians for any
risk occurring in the transmission of such
documents as the above

Sincerely

Your Obedient Servant
P.D. Lewis
The Secy.

Resolved - That the Medical Officers Report on Diet be entered on the Minutes, and be referred to the House Committee for their opinion and Report, and also to the Commissioners.

Passed unanimously

To the Chairman &c.

In compliance with your request to report on the House Dietary I take leave to submit the following observations and Scale of Dietary for your consideration, hoping they will be considered in no other point of view than as merely suggestive.

It would be judicious in all cases to modify, and apportion Systems of Dietary in accordance to, and strict conformity with the age and Health of individuals - the quantity and quality of food should bear a uniform relation to the limited or advanced period of life, and to the exact condition of the other; any Scale intended for general application, and founded upon principles at variance with, or in opposition to this fundamental one, is highly objectionable: for, altho such a System might, doubtless, succeed in maintaining Existence, it would do so at the expense of Sacrificing Health on the one hand, and of obstructing the daily advance of labour, industry, and Education on the other. The Expense too, incurred by the adoption of remedial means and Medical treatment for the restoration of health thus impaired would probably even then exceed that of a more generous diet permitted to the young for a period limited by a return to, and maintenance of perfect Health of the inmates of the House.

The Principle here laid down appears to have been overlooked in the construction of the present Dietary, both as regards quantity and quality. As proof of the latter it need only be remarked that Children of 2 years and one month old get Buttermilk daily at two meals of the three allowed them; and Potatoes at one - that the Quantity has not been duly proportioned. It seems evident from this: that a person of 14 yrs 11 mo gets but $\frac{1}{2}$ lb Potatoes more than a child of 2 yrs 1 month old.

Again, there are many persons in the House advanced in years and labouring under all the infirmities which flesh is heir to; but who have not diseases which would strictly speaking, warrant the interference of medical treatment: such persons have suffered severely from the large quantities of potatoes allowed them, and in some instances aggravated disease has resulted therefrom. It would be prudent to have those persons to form a distinct class, and it would be humane to allow them a more generous diet.

The Dietary for Infants of and under 2 years has been already reported on (see Report on Dietary) which a reference may be made as now applicable. The next class from 2 to 5 with Mother in Cuckoo are as follows:

	Breakfast	Dinner	Supper
Age 2 1/2 yrs 1 month	3/4 lb Rice, 3/4 pint Milk	1/2 lb Potatoes, Bread and 1/2 pint Buttermilk	1/2 lb Bread, 1/2 pint Milk
Age 3 6 yrs	1/2 lb Rice, 1/2 pint Milk	1/2 lb Potatoes, 1/2 pint Buttermilk	1/2 lb Bread, 1/2 pint Milk
Age 4 10 yrs	1/2 lb Rice, 1/2 pint Milk	1/2 lb Potatoes, 1/2 pint Buttermilk	1/2 lb Bread, 1/2 pint Milk
Age 5 14 yrs 11 mo	1/2 lb Rice, 1/2 pint Milk	1/2 lb Potatoes, 1/2 pint Buttermilk	1/2 lb Bread, 1/2 pint Milk

on 29th 1842

Gentlemen,

I have the pleasure of acknowledging
the receipt of a letter by Order of the Poor Law
Commissioners dated Dublin 16th Aug^t 1842 in
pursuance of your recommendation of me as
Chaplain of the Established Church for the
Union of the Tallamoun Union fixing the
Salary

"Salary at £30 per annum commencing from the
date of entering upon the duties of the office
(June 18th 1842) and to be paid by the Board of
Guardians"

In accepting this Appointment I feel bound to
return proper thanks to those Guardians who have
thus recommended me

May I further request the Board will please
to order, 1 Quarto Bible - 2 Ditto Prayer Books
& a Surplice - and that a Box with Lock & Key be
provided for the safe custody of the same, in order
to the due and decent celebration of Divine Worship

I think it would be right that the Reading
Desk should be painted Oak color, to prevent
the Pulpit writing upon the fresh linings, and
that one of them should have it in charge to
keep it properly dusted and clean

I annex a list of the Books which I con-
sider necessary for that portion of the Poor which
have been placed under my Spiritual Superinten-
dence.

I have the honor to remain,
Gentlemen,
Your ob^t Servant
John Lever

Passed

Proposed by John M. Walsh

Seconded by James Dillon

Resolved That the Medical Officer be requested (when supplied with proper forms) to enter daily the Diet and extras, specifying the precise quantities of extras for each patient, and we request he will thus aid the Board in limiting the Hospital Expenses as much as possible. We beg to refer the Medical Officer to the "Eighth Annual Report" of the Poor Law Board which details the scale of Dietaries and expenses of the different Workhouses where the Accounts have been audited - and that the Clerk furnish the Medical Officer with copies of this and foregoing Resolution.

Passed unanimously

Proposed by John M. Walsh

Seconded by James Dillon

Resolved That in reference to the letter of our Treasurer giving notice that the Interest on Advances is to be at the rate of 6 per Cent from hence forth - we request our Chairman to write to the Treasurer explaining the difficulties which have hitherto interfered to prevent the collection of the Rate; and intimating that the Collectors have been strongly urged to get in the arrears as speedily as possible; - and that the Board feel extreme anxiety to liquidate their debt to the Treasurer, and anticipate that the arrears of Rate will be got in by the middle of Nov. next -

Should the Debt not be liquidated by that time

Since the Board will not consider the Treasurer bound any longer by the agreement entered into respecting the Charge of Interest for advances but the Board and the Treasurer will at that time be equally free to amend the present, or enter into new arrangements respecting the Treasurership of this Union.

Resolved - That it is the opinion of the Board
that Dr. Phelan's suggestions be adopted and
entered on the Minutes of our Proceedings.

Passed unanimously.

"I beg leave to suggest the adoption of the
following with a view to render the House more
healthy, and to lessen the disposition of Fever
therein.

- "1. - That the Inferior Male and Female Dormitories be free of access to the Superior three times a day, in order that such of them as are unable to sit up may be permitted to lie on their Beds occasionally.
- "2. - That their proper Dayroom be appropriated to the Superior and debilitated Females and of course that the Nurses be removed therefrom.
- "3. - That the Nurses and Infant Children be distributed between their own proper Dayroom on the ground floor, and their lower privy latrine or Bathrooms, in order that they and the Children may have access to the adjoining Yards. - By this distribution the class will be small in each room, and their naturally filthy habits will be less injurious to their own health and to that of others. As there is a sufficiency of Dormitory room, these Nurses should sleep in their own Dormitories.
- "4. The Inferior Males now in the Lunatic Department and those affected with chronic disease in Nos 1 and 4 Male Dormitories to be transferred to the Superior Male Dormitories and each

and each of them as are unable to sit up be permitted to remain in bed - Should Dr. Monahan consider it necessary to transfer any of them from this Dormitory, the workroom is a far preferable place.

"5. The whole House to be well cleaned and white washed, commencing with the Boys and Girls Dormitories and those of the Nurses and infant Children.

"6. As the female side of the Hospital is crowded and there being only a few male patients, the spare room at the male side to be appropriated to such females under ten or twelve years old as may be affected with fever or any other acute disease.

"7. The Schoolmaster's room may be very beneficially used, if necessary, as a convalescent ward for Males, and the female lunatic side for Females - or if considered preferable, the Male convalescents may be placed in the Male lunatic side - The advantage of having access to the Lunatic Yards is in favor of this arrangement, which, if carried into effect would leave the Schoolmaster's room unoccupied.

"8. The Hospital Nurse should be in charge of all patients (male and female) in the hospital - she only has charge of the females - and if any assistant be occasionally necessary, she should be supplied with one."

Mr O'Donoghue also attended

The following proceedings took place

Minutes of last meeting were read & confirmed

An Investigation into certain charges brought by
 the Rev. M. Callery R. C. Chaplain, and post-
 poned by resolution of the Board on the 17th ult
 this day was then entered into in presence of
 the Assistant Commissioner who took minutes
 of the evidence.

When the investigation closed it was

Proposed by Thos O'Flanagan

Seconded by Matt Hougham

Resolved - that having patiently investigated
 the charge brought by the Roman Catholic Chaplain
 of the Lullin Workhouse, the Rev. M. Callery
 against the Rev. M. Remy who officiates as
 assistant Chaplain of the same Church

of forcibly detaining two male pauper children named Patrick and William Morris, to force on them his religious instruction: this Board judge such charge of their forcible detention, to have been clearly proved - because the children were entered on the Register Roman Catholics, their Creed, and admitted on the 11th day of June last, and then on the 15th November last this forcible interference with the religious opinion of these children took place; the Rev. Mr. Berry, organist of their Religion, as appeared in evidence, from a conversation which he had the 5th Inst with the Schoolmaster of the Workhouse, and previously from an inspection of the public Register.

An Amendment was

Moved by John Armstrong

Seconded by Philip Bolton

That we protest against Mr. O'Hanagans Resolution; conceiving that the Rev. Mr. Berry acted conscientiously, as he thought from the entry on the Register (Disorderly children) it was his duty to communicate religious instruction to the children, and this opinion Mr. B. adopted from the late Attorney Generals opinion, and the letter of the Poor Law Commissioners to the Rev. Mr. Jones - negatived -

The Resolution was then put and carried with two dissenting voices (Mr Bolton & Mr Armstrong)

Moved by Mr. O'Loghlin

Seconded by John Keenan

Resolved - That on investigating a second charge of violent attempts at proselytizing, brought by the Rev. Mr. Callaghan R. C. Chaplain of the William Workhouse, against the Rev. Mr. Berry assistant Chaplain of the Established Church - The Board consider this charge also fully proved, and that too, in the face of an entry on the Register of Mr. Callaghans religion as Roman Catholic in which he was baptized and educated which entry was erased by John Geary and the word "Protestant" substituted by order of the Rev. Mr. Berry.

Passed with one dissenting voice (Mr Bolton)

Proposed by the Hon. Mr. O'Hanagans

Seconded by James Dillon

Resolved - That having investigated certain charges brought against the Rev. Mr. Berry of attempts at proselytizing the inmates of the Workhouse; the Board call upon the Rev. Commissioner now present Mr. O'Donoghue, to lay the whole evidence before the Poor Law Commissioners.

Passed unanimously

Moved by James Dillon

Seconded by Mr. O'Hanagans

Resolved - That John Geary assistant to the Master, be expelled the house immediately for having, without the authority of this Board changed the religious Registry of several pauper inmates from Roman Catholic to Protestant at the instance, and by the order of the assistant

Assistant Protestant Chaplain, he (Yeary) being himself, as he admitted of that Commission -

At an Ordinary Meeting of the Board of Guardians held this day Gerald M. Delaney in the Chair and the following Guardians being present

Mr. Delaney	Henry Quinn
Mr. O'Leary	James Walsh
Denis Molloy	Robert Corcoran
Philip Molloy	John O'Brien
Mr. Houghan	
Lawrence Delaney	

The following proceedings took place

Minutes of last Meeting and correspondence from Commissioners read:

Proposed by Lawrence Delaney

Seconded by Philip Molloy

Resolved - That the two Communications from the Poor Law Commissioners of the 30th November, one purporting to be a copy of their reply to a private letter from the Protestant Chaplain of the Workhouse, and the other a reply to the Guardians, having been submitted to the Board, the Guardians cannot refrain from expressing their surprise and disappointment, that the repeated and deliberate attempts at persecution by the Assistant Protestant Chaplain, the Rev. Mr. Henry, as proved and substantiated, should have only elicited from the Poor Law Commissioners a kind of qualified disapproval of the Chaplain's conduct, and not his immediate removal - thereby holding out the prospect of similar impunity for future similar occurrences

Passed *unanimously*

Moved by Roger Corcoran

Seconded by James Walsh

Resolved - That while the Commissioners admit in their letter to the Clerk, "that on occasion should have arisen for such observations" condemnatory of the Protestant Assistant Chaplain's conduct, the Board cannot avoid contradicting such admission with the partial extenuation set up for him in the third and sixth paragraphs of their letter to the Protestant Chaplain in which they write "Mr Berry appears to have considered himself authorized to give directions to the Workhouse officers with regard to the amending of the entries in the Register, if so, he has acted under an erroneous impression" and again, on the last letter of the Chaplain who was not present

"It is painful to find that a consciousness of triumph, or a sense of defeat, should be the result of deliberation which ought to have been conducted dispassionately, and with a simple desire to arrive at the truth" which expression of regret was unsustained by evidence, and was uncalled for from the nature of the investigation - conducted with deliberation, and before a discussion or final decision on each charge, in the withdrawal of every individual from the Board not a Guardian except the Clerk and the Asst. Commissioners

Passed unanimously

Moved by Henry Quinn

Seconded by Matt. Houghness

Resolved - That a letter addressed to Mr. Berry, dated one of the four dates of the Board

from the Rev. Mr. Lewis, Chaplain, being handed to our Chairman, in which he justifies his absence from the Board by writing that he did not "think it becoming to enter a quarrel of strife and dispute" meaning the Board; the Guardians in reply merely refer this charitable attack to the opinion of the public, as connected with the charges against the assistant Chaplain, who stated he in fact, acted with the Rev. Mr. Lewis directions

Passed unanimously

Moved by John O'Brien

Seconded by Mr. O'Flanagan

Resolved - That we consider the investigation instituted by the Rev. Mr. Callaghan in reference to the very disreputable entries in the Register-book, apparently with a view of procuring and done at the instance of the Rev. Mr. Berry, was conducted throughout in a dignified and temperate manner and in every respect creditable to the Rev. Mr. Callaghan

Passed unanimously

Moved by Miss Wogan

Seconded by Denis Molloy

Resolved - That this Board cheerfully and unanimously concurs in recording their sense of the impartial, independent and upright conduct of Mr. O'Flanagan on every occasion when his services were required; and that the foundationless reports circulated by interested parties reflecting on him with reference to the investigation before the Board on the 26th November call for our unqualified condemnation

Passed unanimously

Moved by James Walsh

Seconded by Denis Molloy

Resolved - That the Board direct the Master of the Workhouse to correct the particular entries on the Register to which the following has been directed viz: 112, 113, 114, 115, 152, 345, 475, 476, 627, 689, 690, 701, 810.

Passed unanimously

Proposed by John O'Brien

Seconded by John O'Flanagan

Resolved - That the able Report furnished this Board by Doctor Moorehead, Medical Officer of the Workhouse, be inserted on the Minutes of our proceedings, reserving the sustaining of his claim for increased remuneration till our next meeting.

Passed unanimously

Moved by Laurence Delany

Seconded by Matt Houghron

Resolved - That by the Master's complaint of the much become description of white Potatoes supplied the Inmates of the Workhouse by Mr Robert English, the Board consider that no more of such provision should be received - and that the Clerk give notice to Mr English accordingly, and that the Master write to Mr Terence Molloy for the necessary supply of Potatoes till the next meeting of the Board.

— Doctor Monahan's Report —

In reply to the last Resolution of the Board on the subject of Vaccination, the Commissioners have expressed the following opinion relative to an increase of my Salary as Physician to the Workhouse: "The salary at present allowed to Dr. Monahan is as high as we would feel warranted in sanctioning for a Medical Officer, having a regard to the size of the Workhouse and number of its inmates. This opinion has brought before you the question, whether or not, it may be entitled to any increase of remuneration; and the consideration of that question has been wisely postponed to this — a full Board.

Taking the Standard adopted by the Commissioners, namely, "the size of the Workhouse and number of its inmates" as a criterion by which to decide my claim, it may be stated that the average number of inmates in the South Dublin Union Workhouse is about 1700 and the Medical Staff costs £300 a year, the average number of inmates in our Workhouse is precisely 175 for the last three months.

If 1700 inmates cost £300 what should 175 cost — nearly £84.

It results from this that I am entitled to nearly £84 a year but Sir, I respectfully decline soliciting any additional remuneration from the Board on such grounds, to the correctness and justice of which subject, for the following reasons: first — If there were 1000 paupers in the House, all, or a large proportion of whom were in good health, I should

should not therefore necessarily be entitled to an increase of salary, nor indeed should I at all feel justified in asking it. — Secondly, it is obviously a matter of the least possible consequence to me, as regards sacrifice of time — mental and physical labour — exposure to contagions and infectious diseases and total amount of duty, how few may be the number of healthy inmates so long as the number of diseased ones continues the same as has been placed under my care from the opening of the House to the present day.

From the comparative few which our house has accommodated, a greater amount of disease has presented itself than has been observed to occur in any other Union the records of which I have access to. Why, then, this occurred? and why must it continue to occur?

The reasons are sufficiently evident: we have a pauper population permanently prevailing to an extent greater, as I understand than that of any other town or parish in Ireland of similar proportions — we have no Fever Hospital in the County but one situated at a distance of 20 Irish miles from this — nor have we even a Dispensary for ministering outdoor relief. It follows then of a consequence that the poor seek shelter in the Workhouse not only in a state of debilitation, but of disease: I have known many come in, and obtain admission for the pure purpose of being placed under Medical treatment.

It may be thought that Fever which has prevailed in the House of late has been but a temporary complication of disease, and which

being removed. I shall be relieved of the most important item in the scale of my duties. I can entertain no doubt that the recital of Fever should produce on the minds of intelligent men a conviction of the justice of my claim for additional remuneration, but that my duties were equally arduous, and my time equally occupied before Fever assumed an epidemic form, a reference to the annexed table will clearly prove: it shows the correct number of persons in the Hospital weekly - also the admissions, discharges and deaths, from the first Monday of the House being opened to the closing of the Book on Saturday last; - the number of Hospital patients averaged 54 for whom I had to prescribe daily: I have had also to compound and dispense my own prescriptions, - in some cases to administer and in many to see them administered.

I had to attend at all hours of the night - generally twice a day, often three times - and always for hours on the occasion of my first visit. We have had two epidemics of the albumen amounting to 200 cases or upwards who were extern patients and of whom consequently no record was kept: but they required attention - close attention - and whether they have received it or not may be inferred from this fact - that every case terminated favourably.

Now Sir, I respectfully submit that these considerations, and these alone should regulate my Salary: and upon them, and them alone I rely for a just and equitable remuneration.

In the Rathkale Union during the six months terminating 29th Sept 1841 there occurred but 17 cases of disease - I have had more cases in the Hospital daily by 7 than the Medical Officer has had during six months, and their Salary is £50 - where then is the injustice of my claim? I can see no sound reason for supposing that disease will diminish here in future, or prevent itself in less aggravated characters: and from the State of the Land, destitute persons altho having fever, when properly recommended for workhouse relief cannot be refused admission.

I refer to the Hospital books as showing the number of infections and contagious diseases I have had to treat: and to the testimony of those acquainted with the establishment, not the number of my daily visits. I refer to the results of the treatment adopted as proof of the attention paid the Sick. I call upon the common sense of any man to say what must be the danger of coming into daily contact with such an amount of disease for a length of time necessarily occupied in performing the indispensable duties, and I appeal to the consideration of this Board whether such duties and such risks entitle me or not to additional remuneration.

Table

Showing the average number in Hospital daily from the week ending June 18th to the week ending November 19th inclusive - also the number of weekly admissions, discharges and Deaths. I refer to the Medical Reports in the Weekly Return Book as showing the number

of this table - the book alluded to was closed every Saturday, and the number remaining in Hospital estimated after the admissions, discharges and Deaths during the week had taken place:

The difference between the admissions and discharges after adding 72 the number in Hospital, and the number of Deaths to the latter is made

up by those who left the Hospital and House voluntarily - who were taken out by Parents and who were expelled for misconduct, none of whom are included in the above Return, the parties alone being there set down who were discharged cured

" Sir,

" Mr Edmond Kelly who is one of the
Securities for the Master of the Poorhouse here,
came to me today saying he was not legally
bound for any defalcation of the Property in the
House - that it was going - and that the
Guardians should look to it.

I desired him to make any communication
he thought fit to the Board. That were to as-
semble the day after tomorrow.

I think it my duty to make you aware of this circumstance, and I am sure the Board will be anxious to hear from you on Thursday on the subject. On application to the Clerk he informs me the Bond is filled in the usual way. I have written to Mr. Edmund Kelly on the subject, but it is always so when I cannot return an answer in time.

I have the honor to be

Sir

The Poor Law Commissioners acknowledge the receipt of your letter of the 3rd inst. stating that Mr. Edmund Kelly, one of the Trustees of the Mayor of the Workhouse of the Tallamore Union alleges that he is not legally bound for any loss of Property in the workhouse.

A condition of the obligation imposed on the Master and his Sonnet by the terms of the Bond prescribed by the Commissioners being that the "Master shall fully and honestly discharge all the duties of the said Office, as defined by the Poor Law Commissioners" and the Commissioners in the Order for the Government of the Workhouse having prescribed as part of the Master's duties Sec. XXXI. par. 19. that he shall "receive and take charge of all Provisions, clothing, linen, and other articles belonging to the workhouse."

is confined to his care by the Board of Guardians "of the Union." The Commissioners consider that Mr. Kelly is in error as to his liability for the Master, and that the Bond, which it appears from your letter that he has duly executed, is binding upon him in this as in other respects.

Order of the Board

Arthur Moore
Chief Clerk

Proposed by James Jackson

Seconded by Matt Houghron

Resolved - That the Rev. Dr. O'Rafferty's requisition for Books, Beans, Vestments &c. be ordered, subject to the approval of the Commissioners.

It having been reported to us that several paupers have frequently complained that the milk was bad, and watered; we deem it necessary to investigate the charge having two Magistrates present to administer an oath.

John Beatty sworn - I am Schoolmaster of the Llanur Workhouse - I heard complaints of the milk from one or two of the men, I did not examine the milk - I did not report the milk to be bad - I told the man who complained he had a right to report it to the Master - I was not desired by anyone to look after the milk.

(Signed) John Beatty

Mary Doyle sworn - I am a pauper in this House - I got bad milk in the House - the milk was watered - I know of my own knowledge of water being put into the milk - I saw Rosanna Mac, put water out of a tin can into the new milk - I did not tell any one of it - Rosanna Mac is a pauper in the House - I never told any one of water being put into the milk but the Priest - I was asked by the Priest did I ever see water put into the milk - I said "I did" - I drank the milk after being watered - It was about the same I got every day - I would have suspected there was water in the milk, but I would not be able to prove it unless I saw it - I was standing outside the dairy door when I saw the water going into the milk - it is more than a month, but I don't think it more than two months since - it was before breakfast - there are three or four milk vessels in the store - I am enabled to say it was in the new milk, because Rosanna Mac began to give out the milk for Breakfast out of the vessel she put the water in - I carried out a Barrow of this milk into the Hall - I never mentioned this to Rosanna Mac - I never had a quarrel with her, and there was never any charge brought against me - I heard from the Porter that milk going to the Hospital should be watered - but this milk did not go to Hospital - I heard there was milk stolen from the store - I did not see any one steal it - I believed when I heard of it being stolen, that it was stolen, and I believe the Master was at the loss of the milk, if stolen - the Master was not present when the water was put on the milk - I believe the door to have been locked - the door is never locked - I could see thro it

I am Casade Sworn — Is a pauper in the House — Sworn employed in the Dairy — Sworn the milk there by the directions of Master Milly McSheran's Son — Sworn it often — Spent in the contents of the large gulla (pail) in the cow / Sometimes the water was in the Dairy before the milk came, and sometimes it was not — The paupers would be abusing me in the Hall saying I put water in the milk — Sworn to be safe for the water when it was not there by Mr. W. McSheran — I do not know how long since Sworn in the Milk Store — it was before the Motion did Sworn there — I never told any one but Mr. Bannon — I asked her was it a cause of confusion, she told me it was — I said till the Rev. Mr. Callaghan the last day he was here in the presence of the Motion — That was the first time I told him — I also told it to Mr. Callaghan in presence of Mr. W. Molloy who tasted the milk in my presence, and who said it was watered — I cannot tell how long Sworn in the Milk Store — Sworn into the Hospital from the store — Sworn not turned out of the store — I never asked any person to get the Master to take me back into the store — Mr. Kelly asked me to go to his House as a servant — I would have gone, but Mr. McSheran would not allow me — Mr. Kelly asked me a few days before did I know how to milk cows, I told him no — I was in the Hospital when the Motion did — Mr. Kelly had me put into the store a second time — Mr. Kelly called me out and told me to go in and measure the milk — Mr. Kelly asked me to take my time to measure the milk so as to give the paupers their allowance

It was in Summer and Master Sworn in the Milk Store — I saw what milk was in the pails turn into cream — There would be milk thrown into the pails, and some of the milk in the pails would be thrown into the churn when milk was in it — about a Maggin would remain in the pails — the Master was not present when the water was put into the milk — the paupers often came in and out for Bread, milk and Meat — The Master's girl often came in and out — I heard the Master say he was short of Bread, Meat and Dinner in the Hall — I saw persons taking victuals — Sworn not in the confidence or employment of the Master when those things were taken — I did not tell the Master — I used to hear the people say they had no sample in taking milk or Potatoes because they had not enough — Sworn not prosecuted before the Magistrates since I came into the House

I did prosecute Mary Sealy
question by Mr. Callaghan — Saw the milk from Mr. Kelly measured.

Resolved That we will now hear what the Master and Contractors have to produce for the defence, as the Rev. M^{rs} Callery has closed

Mary Seals Sworn — Is a pauper in the Workhouse of Tallamone — I know Jane Cusack. She prosecuted me some time since before the Magistrates for an assault. I did not assault her, and what she said was false — Mary Malone, Catherine Ranson and Mary Whelan were present at the time she said she was assaulted — I would not believe Jane Cusack on her oath — I live at Derry, M^{rs} Kelly's house in the country for a fortnight — I never put water in the milk or saw it watered at Derry — I never saw water put in the milk in the State except the milk for whey.

Question by the Guardians — Catherine Ranson and Mary Whelan were examined on the trial before the Magistrates, notwithstanding that examination I was convicted — M^{rs} McDonald was examined — She then saw Jane Cusack swear to trust her with

the Bucket, or some I threw the stop that was in the Bucket on Jane Cusack — I was sentenced to three weeks confinement — I was out at Derry I was out on pass whilst I was there, I was not hired — I took milk from M^{rs} Kelly's cow, that came to this house — I got no wages from any one whilst there — I was not employed in the milk line at the Poor house, except one morning but I was often in it — I never accused Jane Cusack or Rosanna Mac Mahon of watering the milk — I was sent for this day week by M^{rs} Kelly and the Master of the Workhouse — I was asked would I ~~prosecute~~ bring on a charge of Perjury against Jane Cusack by the Master and M^{rs} Kelly, no indictment was held out to me to prosecute her.

Question by M^{rs} Kelly — I heard I was to get the usual wages from M^{rs} Kelly if I answered — I gave up the service in consequence of a pain in my shoulder — I got a note from M^{rs} Kelly to the Board stating the reason I was obliged to return.

Question by Rev. M^{rs} Callery — Rosanna Mac Mahon was at M^{rs} Kelly's whilst I was there.

she was in the habit of killing his and I know I have no other reason for saying she should not be believed on her oath - Jane Casaac was employed in the Dairy at the time the act I complain of was committed - I was employed in the Laundry and had the charge of the clothes - I did not tell any person of Jane Casaac's improper conduct - it took place after 8 O'clock - it happened three times in the Dining Hall, and the passage to the Dining Hall - I never saw this taking place except in these three instances - I never complained of the milk - I have heard the paupers complain of the milk having the taste of water - I never complained to Mr. McCallum that my sister children were wronged - I was in the Male side of the House two or three times being sent of a message by the Matron - I was never in a room in the House drinking punch with a man - I was never alone with Henry in the Schoolmaster's room - I never went with breakfast to Henry when he spanned his foot - I never was employed in the Dairy - I take my meals in the Laundry - The Doctor put me on Bread and Milk - I take the same milk as is given to the Hall - I was never out of the House after dark except once from four to five O'clock - I never went of a message to Mr. McCallum in the evening - I complained one morning to Mr. McCallum of my child not getting her breakfast - I told Jane Casaac if I ever saw improper conduct again I would report her

 more than once - I got three times to examine
 the milk: it was good milk, as good as
 I ever saw - it was the same milk com-
 plained of - I think the pauper has no
 right to complain - I examined the
 milk more than a month ago twice, and
 once the last week - I was often in the
 Dairy when the milk came in, and never
 saw water in the dairy only when Dr
 Moorhead ordered the whey milk to be
 watered - it was watered first and then
 measured - three quarts was the largest
 quantity of water ever put into the milk in
 my presence - I never saw any milk in
 the Hall that did not appear to be genuine
 there was an allowance given for the water -
 I never saw any immorality in the House
 except the women cursing and swearing, this
 is diminishing - I never saw Mr Edmund

— Auditors Report —

To the Guardians of the Poor of the Lifford Union.

Gentlemen,

I have the honor to lay before you for your information the following Statement on the Audit of accounts of your Union which commenced on the 23rd November last was resumed on the 30th December and concluded on the 9th Inst.

This being the first audit of the accounts since the formation of the Union, the expenditure of the period comprises between the date of Declaration of the Union 16th Sept^r 1839 and the 29th Sept^r 1842 came under my consideration. Reviewing the Ledger in which these accounts are posted in detail they are set forth in the following respectively numbered 4. 5 a & 5 b.

The Form 4 shows that from the 9th June last, being the day of opening the Workhouses for the relief of Destitute Poor to the 29th Sept^r, 743 persons were relieved, the collective number of days being 45,761 and the daily average number of paupers being about 405. The Form states the numbers admitted on each of the Electoral Divisions distributed into classes.

From this it will be seen that the actual admissions were 740, 3 persons having been born in the Workhouse, the discharges being in the same time 371, the Deaths 12 leaving 360 paupers on the 29th Sept^r in the Workhouses.

In this Form also will be found the average weekly cost of a pauper for Food and Clothing, the former being $1\frac{1}{8}$ the latter $3\frac{1}{2}$ being an estimate of cost and that as is usually made in other Unions. The computation of the weekly cost of food does not include necessaries. Had the cost of these as given in the provision books been brought to charge, it would have raised the weekly average by a very small amount viz: from $1\frac{1}{8}$ to $1\frac{1}{10}$ ¹¹⁰⁹/₂₅₇₄₁.

The Salaries of the Officers of the Union are exhibited in this Form. These amount to £260 exclusive of the charge for the collection of the Rates, or to $1\frac{2}{3}$ of every shilling of a five penny Rate.

It is not however by a comparison of this kind that the judicious and economical application of Union funds can be tested, but by the proportion which these Salaries bear to the cost of relief given to the Poor. This view of the case should never be lost sight of.

The separate accounts of the Electoral Divisions required by the 44th Section of the Irish Poor Relief Act, to be kept by the Board of Guardians, are exhibited in Form 5 a & 5 b. The first shows that a Rate of five pence in the Pound was made on the 25th March 1842 on Property of a Net annual value of £87,818⁸/₈ and that the Rate amounted to £1828.4.6¹/₂ of which was collected on the 29th Sept^r last, £1267.7.9¹/₂ leaving uncollected £560.16.9 of this sum it appears from my notes, that there remains uncollected on the 23rd Nov^r a sum of £113.15.11¹/₂.

The Form 5 b exhibits the income and expenditure contrasted, and the Balance in favor of and against the several Divisions as the case may be. On the portion of the Form showing the Receipts on account of each Electoral Division it does not appear that any sums have been received from any other sources of income than from the Rates themselves. A sum oblige by the Order of the Commissioners (see Sec VI par 2)

bringing into the Account all sums received on account of the Divisions. I have obliged the Clerk to enter into his Ledger payments to the credit of the Divisions of Durrus, Killybegs and Rathfracta making the total sum £1267. 7. 9² instead of £1253. 5. 4², for this I refer you to the abstract which a copy of which the Clerk is obliged to furnish to each member of the Board of Guardians.

On the other side of Form 5 it appears the expenditure on account of each Electoral Division in several columns. It appears the cost of Maintenance including wear and tear of clothing is 3s per head per week amounts to £650. 19. 3¹/₄ of this sum it appears from the Provision books that £560. 16. 10² was the cost of Provisions alone exclusive of necessaries, which amounted to £38. 19. 2³/₄. I find by the Vouchers I find by the Vouchers that for Provisions there was paid a sum of £400. 19. 1² thus leaving a Balance of £159. 7. 9 due to Contractors.

The Expenditure under this head has been made out for each of the Electoral Divisions by means of the collective number of days during which paupers have been maintained in the House from each of the Divisions as they appear in the Weekly Relief list and Abstract Forms 10 a 10b.

It appears that Rathfracta is the only

Division from which no paupers have been received to the 29th Sept. Accordingly the only charges on this Division are those for support of the Establishment which next comes under consideration.

The Establishment charge as appears in the Ledger amounting to a sum of £1365. 0. 3¹/₂ is apportioned on the several Electoral Divisions in proportion to the net annual value of the rateable property, being a different mode of computation from that adopted with respect to the charge for Maintenance, as required by the 4th Sec of the Irish Poor Relief Act. As the Clerk has not furnished to me a detailed account of the particulars of the total cost of the Establishment. I can only refer you to the Ledger in which the accounts are posted with considerable regularity.

The third column of expenditure contains a total charge of £32. 10 being Election expenses incurred for Contracts by the Divisions of Rathfracta, Killybegs, Killymore, Rathfracta, Rathfracta and Clara.

All these charges amount to a total of £2048. 9. 7² and deducting therefrom £1267. 7. 9² the Rate collected, there remains due to the Treasurer at close of the Half year, ending 29th Sept 1842 a Balance of £781. 1. 9² leaving all the Divisions of the Union in debt except that of Rathfracta to the credit of which appears a balance of £217. 3².

The Balance thus due to the Treasurer exceeds the amount outstanding of the first Rate by a sum of £223.2.3^d. This result has been the consequence of endeavouring to meet Establishment Charges accruing for a period of three years, comprising the cost of valuing the Union property, Election of Guardians, Salary of the Clerk and other expenses incidental to the business of the Board, together with the expense of outfit and support of paupers by a Rate of five pence in the Pound.

This result could not, at the outset, perhaps, be avoided. I cannot help however suggesting the propriety of putting in practice the directions given by the Commissioners for making future Rates. These are stated in the Order regulating the Meetings of Guardians as follows: "Provided always that the Guardians shall as soon practicable observe the following regulations, that is to say, one month before the 29th Sept and 25th March in each year an estimate shall be formed of the total expense likely to be incurred by each Electoral Division in respect both of general and particular charges, for six calendar months to be computed from the said days respectively, and a Rate founded on such estimate shall previously to such days respectively be made, but in case the actual expense during any half year shall exceed the estimated amount, the Guardians may provide for such deficiency by levying a supplemental Rate, or by

providing for it in the estimate of the succeeding half year."

I now come to the state of the Books, which I am required to examine and report on for the information of the Poor Law Commissioners, and first of those required to be kept by the Masters.

1- The Register. In the entries numbered 6.7.9.10.67.204.382.383.575.803.881.907 the names of the Electoral Divisions appear to have been altered and no authority is stated in the Minutes for so doing. As this Book is the foundation of the liabilities of the Electoral Divisions the Legislature has required (see the 13th Sec of the Irish Poor Relief Act) that it should be produced at every meeting of Guardians for examination, approval or correction, after which it should be signed by the Chairman and countersigned by the Clerk.

2- The Admission and Discharge book. Some interlineations appear in this Book apparently intended to keep the dates of discharge in chronological order. Otherwise the Book is regularly kept.

3- Record of Births - This Book contains seven entries, in none of which does it appear when or by whom the children were baptized - the columns are perfect blanks.

4- Record of Deaths - regularly kept.

5- Weekly Relief list 10a and Abstract 10b have been correctly kept and the numbers correspond with those stated in the previous book.

6. Provision Check acct. D^c Receipt and Consumption are not signed by the Clerk as they should have been in pursuance of the Order of the Poor Law Soc^y 1 par 10 of the Order for Keeping the Accounts of the Guardians.

7. The Clothing Material Book - Some pages in this Book appear to have been cancelled and the entries made anew but no number of Invoice, or number of Tolls of Sledge appears to have been made.

8 - The Clothing Receipt Book - The last entry in this Book should be examined and compared with the Stock in Store.

9 The Clothing Appropriation book does not contain the date on which any of the Paupers received their clothing in any one instance.

10 - The Labour Book contains no entry from 6th August to 5th Oct^r and it does not appear whether the Paupers were employed or not. The pages of the Book instead of being numbered off from week to week are marked as follows:

Week ending	13 th June
	19 th July
	31 st July
	8 th Sept ^r
	10 th June
	16 th July
	6 th August
	5 th Oct ^r
	10 th Sept ^r

11 Inventory Book - This should be examined by the Board of Guardians, and the correctness of the entries ascertained before the next Monthly rates on the discharge of his duties.

Books to be kept by the Clerk:

The Clerk's Books have been regularly kept and correctly brought up. I am however obliged to report that one ~~part~~ very important part of this officers duty has been entirely, and I must add deliberately neglected. This is the authentication of the Books required to be kept by the Master.

The 10th Par. of the 1st Sec of the Order for Keeping the accounts to which I have already referred you states that "previous to the hour appointed for the Guardians to assemble at every meeting the Clerk shall ascertain the accuracy of the several entries made by the Master of the Workhouse in the Weekly Relief List (form 10 a) and Abstract (form 10 b) and the Provision Check account (form 11) and Provision Receipt and Consumption account (form 12) and the Clerk shall compare such entries with the entries in the Minute Book; and having authenticated the correctness of the same by affixing his signature thereto, he shall exhibit all the said Books to the Board of Guardians at every such meeting."

I have repeatedly and in presence of your Board complained of this omission on the part of your officer. The Commissioners desire this plan to be carried out and I trust the

possibility of fraud on the part of the Officers.
In the absence of any proof of fraud I am
bound to presume that none has existed, but
the measures devised for its prevention ought
to have been carried into effect which I regret
to say has not been done.

I am the more anxious on this point now
as you are about to provide a successor for
the present Master, and you have now suffi-
cient evidence acquired from experience of
the necessity of not permitting any consid-
eration to interfere in the choice of the new
Master but his fitness alone. Indeed if you
could procure the services of a competent person
who was a total stranger to the Union, it
would be a vast advantage. It has
happened that Masters who had friends on the
Board of Guardians have leaned on them for
support instead of on their own exertions
in the discharge of their duty.

A total stranger knowing no one at the
Board must rely on his proper discharge of
his duties. Besides, in such a case, there
is no room for supposing that any undue
or improper leaning exists towards parties
with whom engagements have been already
or may at any future period be entered
into by your Board.

In auditing the accounts I am obliged
to see that the payments made by your
Orders are sustained by adequate vouchers
and authority. In examining with the
counterparts of your Drafts

on the Union Treasurer I have found several
payments made without any receipt for the
same. These were so considerable that I was
obliged to postpone the audit to enable the Clerk
to procure receipts from the parties.

Thus he has in a great many instances done
there remain however still the following payments
made by your Order for which no receipts have
been produced to me viz:

No 8 Draft	£ 3 6 10
21	11 12 2
30	3 0 0
33	24 5 3
46	1 12 0
152	2 17 1
	£ 46 13 4

These sums the Clerk should account for
by the production of receipts from the parties
to whom payments were made. It is the
Officers duty to see that all accounts are
properly kept, and the 6th Par. of Sec V of the
Order for keeping the accounts, requires that
a written receipt on a proper stamp (where
a stamp is necessary) shall be procured
from every person whose Bill or demand
shall be paid by a Check or otherwise.

In the examination of the Drafts I have
found some payments made by the Master
for which an account should be rendered,
these are:

Draft 58	£ 14 0 0
102	1 14 9
	£ 15 14 9

I cannot conclude this Report without strongly recommending to your consideration and adoption the rule laid down by the Commissioners in Sec V par. 5 of the Order for keeping the accounts, that the Treasurer should procure every week from the Treasurer a statement of receipts and payments, to be laid before the Board at every meeting, and after examination to be signed by the Chairman. And it would greatly conduce to the order and regularity of your dealings with Contractors, if their Invoices were accompanied with the Order detached from the Order Check book, as well as their Bills, and receipts for payment when accounts are to be audited. The Auditor would then have before him the following series of Vouchers viz:

- 1 The Guardians Resolution ordering the Goods
- 2 The Order itself duly signed and countersigned
- 3 The Invoice signed by the Master after comparison with the Goods
- 4 The Bill
- 5 The Resolution in Minute Book ordering payment - cash
- 6 The Receipt for the same.

In conclusion I beg to state that this Report is required to be made by the Auditor to the Commissioners at the conclusion of the audit. I have deemed it advisable in the present instance to depart so far from this course, as to address it to you in the first instance on account of your

being about to make an appointment of a Master of the Union Workhouse at your next meeting when the information contained therein may be of some advantage. The Legislature having established the Workhouse test, it is plain that the most important office in the Union for carrying out the objects of the Legislature in enacting the 1st & 2nd Vic ch 56 is the Master, on the choice of whom too much care cannot be bestowed.

I have the honor to be

Llanuore 8th March 1843

Sir,

Since resuming my duties I have found it necessary to make some alterations in the arrangement of the House differing in nature and extent from those I have hitherto found it incumbent on me to execute.

As this may be deemed an interference on my part with the classification of the House and its discipline, I feel called on to state the grounds upon which I have done so, and which may appear sufficient to warrant alteration and amendment.

The room set apart for the use of Nurses and their Infants is on the ground floor and has windows on one aspect only. On the opposite side is a door leading into a Yard where the nuisance of that part of the House is generally thrown: it results from this that pure and perfect ventilation cannot be effected, and that when a current of air enters from the direction of the Yard, it passes into the room loaded with impurities exhaled from the decomposition of noxious substances. The size of the room is not greater than would afford sufficient accommodation to ten women and their infants, the number found in it quadrupled that: 40 women and 40 children were stowed into this ill-lit apartment. Certain consequences have followed (and naturally too) this state of things; many of the children are in a state of actual disease and the constitution of others is deeply impregnated with its latent germs.

In the School and scullery this the House were 27 persons suffering from ophthalmia, and in some of the Dormitories children were lying under different febrile complaints.

The orphans, nine in number, were assigned to a large sized dormitory having no fire place and consequently no fire.

In order to avert, if possible, the results to be apprehended from all this, and to prevent if in my power, a recurrence of Fever, eight cases of which have been taken into Hospital since Saturday last. I thought it my duty to give the following directions:

All persons labouring under ophthalmia whether Infants or not, to be collected so as to form one distinct class - this to be subdivided into Male and Female; the former to occupy the Right, the latter the Left part of the ward, and the latter to be kept in a separate ward, which are to be kept in a dark and the bright light excluded by temporary Blinds.

An equal division to be made of the Nurses and children (infants) remaining; one Section to occupy during the day, the Right, the other the Left Bathroom which are to be cleansed, whitewashed and kept well aired. The Nursery to be whitewashed and the orphan children to be moved into it under the care of two responsible women who will attend to their wants, keep a moderate fire and prevent accidents.

All persons whether children or otherwise labouring under febrile complaints to be removed to Hospital which is also to be whitewashed and properly cleansed.

The entire House to undergo thorough cleansing, whitewashing and ventilation.

An Idea may be formed of the amount of Disease of one kind or other in the House from the fact that 62 persons out of Hospital were presented for yesterday, the medicines compounded and dispensed by myself; this with 30 in Hospital make a total of 92 persons requiring medical treatment.

The time necessarily spent in the proper execution of such duty is indeed very great

and the greater portion of that time is devoted to a department with which I am not legally justified in meddling. I mean the compounding department. From the opening of the House I have endeavoured to wade thro' its various compartments in the hope that every days experience would more and more confirm the Board in opinion that the appointment of an Apothecary was absolutely indispensable.

I have also laboured with untiring assiduity in my proper sphere, that of Physician, and during the minute investigation of complicated disease contracted a fever by which my life was almost sacrificed.

I applied to the Board for an increase of my Salary on the 2nd Decr 1842, and I respectfully refer to the Minutes of that days proceedings for my letter in which the grounds are stated upon which I felt justified in making that claim.

Alterations are about being made in the members of this Board, at least I have heard so, but before any such thing takes place and changes are admitted; I call upon its present constituents under whom I have now acted twelve months - who are fully aware of the nature and extent of the duties I have had to perform - the time I have devoted of necessity to the faithful and conscientious execution of those duties - the risks I have incurred - and the dangers I have escaped to act fairly by me, to exercise their own

free judgement and unfettered discretion in
awarding time an increase of my Salary
and in the immediate appointment of an
apothecary

I have the honor

M. J. Moorhead

OCL BG158/1/1

Proposed by Saml Robinson
Seconded by Rich^d Mooney

Resolved That the Board view with extreme dissatisfaction the unfair and garbled report of its proceedings, which have appeared from time to time in the Leicester Express, because while fully advocating the Right of the Poor to be informed of the Proceedings of this Board the more strenuously maintain the strict obligation under which a Guardian is placed to represent faithfully the question and principle discussed, as well as the individuals discussing them in their true light, and free of partiality or animosity. Such alone constitutes a true and honorable Report and such alone will be calculated to secure a cordial understanding and co-operation of all parties on this Board in working out the best interests of this Institution and doing ample justice to the destitute confided to our care.

An Amendment was
Proposed by James Dillon
Seconded by Philip Butler

Resolved That the Report of the Leicester Express just read is perfectly true in every respect

A Division was called for when there appeared

Londonderry, April 7th 1863

At an Ordinary Meeting of the Board of
Guardians held this day, Mr. McKechnie in the
Chair and the following Guardians being present:

G. M. Delamere
Miss McKechnie
Saml Robinson
Richard Mooney
Philip Bolton
Mell. Thompson

The following proceedings took place:
Minutes of last Meeting read & confirmed

Moved by Gould Delamere

Seconded by Philip Bolton

Resolved that it is indispensable to the due
performance of the business of the Board that
the subjects for its consideration be gone through
in an invariably regular succession and to
insure this the Clerk is directed to enter the
subjects in the Minute Book before each
Meeting to be laid before the Chairman, and the
business transacted to be noted by the Chairman
and that Report Books be provided for
the different Officers of the Workhouse for a con-
firmed form, are not already provided,
and that the officers be directed to make their
Reports weekly.

Passed unanimously

Proposed by P. Bolton

Seconded by Richd. Mooney

Resolved that finding it impossible to establish
Order and Classification in the Workhouse, so long
as the Pumps are employed in carrying Water
for the use of the House, it is the intention of this
Board to enter into a Contract for the supply of
Water, and inform the Commissioners it is our
intention to resist any payment to the
Contractor until we are indemnified for the
Cost already incurred and to be incurred for
supplying the House with Water, and that
the immediate attention and opinion of the
Commissioners be requested on this subject
and that Proposals be received for supply-
ing Water.

Passed unanimously

Moved by Philip Bolton

Seconded by Saml Robinson

Resolved that to enable the Clerk to exhibit
the Extras supplied to patients, Printed
Forms be provided with a sufficient
number of columns to enable the Medical
Officer to enter the different Extra articles
required for the patient daily

Passed unanimously

Agreeably to a Resolution passed at last
an Investigation was entered into of a charge
against the Medical Officer for neglect of
a patient.

Proposed by Gould Old Delamere
Seconded by Matt Monaghan

Resolved that we have patiently investigated the charge preferred against our Medical Officer by Mr. Widow Molloy, and are of opinion that the "traditions and disproves itself"; the therefore think it unnecessary to call for any defence of this charge - sufficient being supplied by the accusers of its foundation's nature. We are of opinion proceedings of this unbecoming and vexatious nature should meet with the strongest censure and condemnation of this Board; in order to mark our disapprobation of it, and to deter others from a similar course in future, we deem it necessary to strike Mr. Molloy's name off the list of Wardens for this Union.

Passed unanimously

Moved by Philip Reilly
Seconded by Sam Robinson

Resolved - That a Cheque on our Treasurer be given to Morgan Maguire for the sum of £30 on account of Bedding and Clothing supplied to the Paupers - and a Cheque for £44 to Pilkington Commission for Potatoes supplied by Contract, also a Cheque to Richard Willis for £8.12.6 for Printing and Stationery done and supplied to the Workhouses.
